7. LCB Lanterns	Page 7
8. Showtime Light	Page 6

Tokyo Wall

The switch is located at the panel
Behind the stage in front of the
Showrunner booth.

Switch the indicated switch below

Hijingo Room Lights

Behind the bar in Hijingo room
We turn 1 & 8 for fully
bright_lights during cleaning.

Before we open the door to let
guests in, we press no 4.
About 1 minute before the game
starts we press no 3.

Ticker Tape

In the office, press the power button indicated below so the light is blue and not red.

The default colour is red.

To select a colour, go to favourites, use the scroller on the right to select the scene you want and press the enter button under the scroller. A tick will appear to verify the scene.

(PLEASE ENSURE OTHER SCENES ARE NOT SELECTED. IT CAN BUG IT OUT & SELECT ANYTHING)

Departments Lights

In the office

**Looking at the menu the site lights are separated in departments
Each of them looks the same as indicated below**

Scene 1 is always the brightest, and as you scale down it gets dimmer.

Front bar and toilet scene can be scaled down when it gets darker.

Show Tunnel

**In the office, from the options below
choose Control and then
Lights On (cleaners on is bright white)**

Presets = Ceiling Scenes

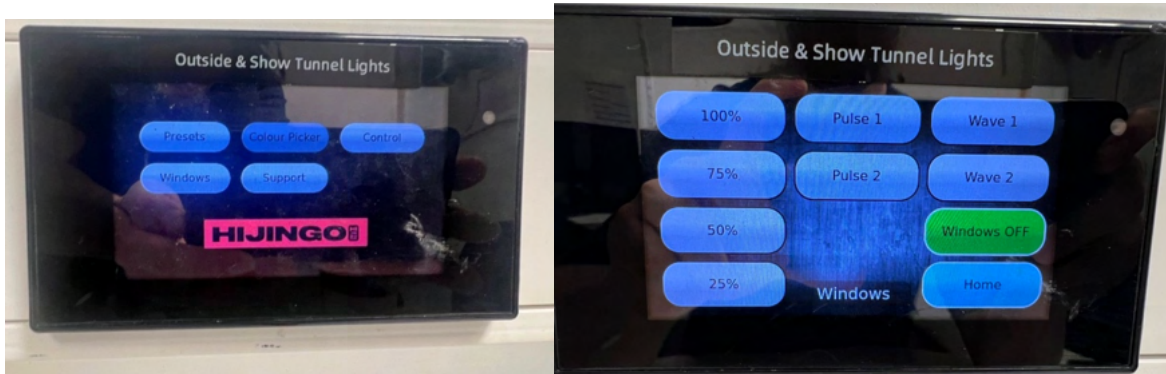

**Colour Picker = for custom colour
Enter code using hex code
& press on/off**

Windows (outside lights)

In the Office, Press the windows option and then press 100%

Showtime Light

behind LCB bar next to the lantern switch.

This light is turned on when the Hijingo room is ready to go, and we open the doors for the guests to get in the room.

LCB Lanterns

Ensure this switch is on

Open Hue App.
